a single instance on record in which any person has been held responsible or been punished. Coroners inquests, under most useless of all formalities; but even their verdicts never lead to any action, neglect to enforce the law? Is nebody interested in it? Are there not officers appointed or elected for the express pur-pose of doing that very thing? Then

why, in the name of all that is sensible and safe, is it never done? There is a constant clamor for new laws on these subjects.; Whenever a railway or steamboat disaster happens, there is a loud demand for new legisla tion on the subject. But this is not what is needed. We have plenty of lawssome of them good and some very badlaws on every conceivable subject and
for the secomplishment of every imaginsble object. The trouble is, they are
never enforced. They are dead letters on
the statute book. Not one man in a
thousand knows of their existence, and

see Special attinition paid to the sale of Cotnot one in a million shows by practical action any care for their enforcement. There are prosecuting officers every-where, whose special business it is to see that the laws are enforced, but they require a complaint to be made by some body of their violation, and nobody takes the trouble to make it. Now and then the widow or the children of some poor man who has been crushed by some illegai railway collision, or blown to pieces by the explosion of a steamer's boiler, or a cargo of petroleum, both of which were Grocers & Commissi in Merchants, forbidden by law, sues for damages and gets them. But the chances of such a contingency are comparatively small and some companies, we understand, make them the subject of calculation, and conclude, on the whole, that it is cheaper to run the risk of them, than to go to the expense of such precautions as would prevent the acci-dents out of which they grow. This is rather a cold blooded view of the sub-ject, it must be confessed—but it is
